

➔ 'I would recommend any young persons thinking of undertaking such a project to go for it!' Ben Fogle

## What Next – How To Apply?

- Open Days** You can speak to ex- volunteers before you book at one of our regular Open Days. You can also drop into our office for a coffee and chat, to help you choose.
- How to book** To book please complete and return the booking form and deposit check. You can also book and pay immediately, online at [www.medforce.info](http://www.medforce.info)
- Booking** Once you book we will send you your password to your own personal web page where you will find all your booking information as well as your kit list, any vaccinations you need, project details and how to pay.
- Medical Supervision** MedFORCE works with partners like the International Red Cross and provincial public health departments. Therefore you normally have professional medical supervision while on your placement. MedFORCE staff in country will provide Welcome and Safety briefings on arrival and also assist you to make the most of your weekends and leisure time.
- Kit and Jabs** Your personal web page will provide all you need to know, including latest news from your project.
- Briefing Day** The BBQ and Briefing day held every quarter is the ideal opportunity to undertake formal meeting on kit, medical and country information. It's an ideal time to chat with staff and ex-volunteers about their exciting experiences. We provide you with all you need to ensure you are well prepared.

# Electives

like no other

➔ professional medical placements  
around the world

“Well organized, hard to leave!  
Thank you MedFORCE.”  
**Thomas McLeod**

- Are you seeking an english language overseas medical placement before university?
- Are you Year 3 or above at university and looking for an organized elective with medical supervision?
- Are you looking for a hospital or clinical placement that provides practical REAL help to the local community?

 MedFORCE operates in Africa, Central America, South East Asia, South Africa, South America and South Pacific.

MedFORCE offers your placements and electives with partners like the International Red Cross and public health authorities. We offer placements and electives in hospital settings with specialised training. Alternatively you can work in the community and provide all-round health care making a real difference to the community. We can place you in an English language setting or include language training like Spanish – you select our programme that suits you best.

**MedFORCE has three levels of placements:**

**Level one** if you are looking to study medicine but have no previous experience.

**Level two** if you are a current medical student in year three or above.

**Level three** if you are a qualified nurse or doctors with A&E experience.

Placements and supervised electives are available individually or in groups. Programs from two weeks to one year. Prices including all food and accommodation, from £550 for two weeks in Cambodia. We also have placements on Corporate Challenges and Film and TV expeditions. We provided Medics for Ben Fogle and Jack Osborne's recent TV adventures. Full project details, dates, costs and booking form are on our web site.
